

terotest

Company Profile

Established in 1982, Terotest continues to provide totally integrated test solutions using proven, off the shelf Automatic Test Equipment (ATE), customised to suit your needs.

As well as providing our own ATE, Terotest supply ATE from some of the most respected ATE manufacturers in the world. This enables us to focus on both the economic and technical requirements of our customers, providing the most cost effective test solutions. Terotest also offer an impartial test consultancy service, looking at all aspects of your test requirement.

Terotest ATE solutions are used by the aerospace, telecommunications, medical, automotive, MoD, rail safety, consumer electronics and contract manufacturing industries, worldwide.

Our head office is in Ashwell, Hertfordshire, where we are centrally located in the UK, close to the three London airports. Terotest have also recently purchased new premises on the South Coast near to Portsmouth where we focus on supplying custom test applications.

Automatic Test Specialists

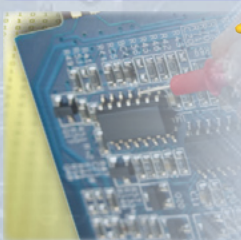

Complete Test Solutions:

Functional Test Systems

- iTest series
Highly flexible, low cost test platform and interface for PCB, semiconductor and module test applications. Extensive range of 3U & 6U Instrument options.

PXI

- Geotest PXI
3U & 6U PXI cards, including high speed digital cards and avionics bus interface cards. All Geotest PXI can be integrated into Terotest's 'iTest' systems.

In-Circuit & Flying Probe Test Systems

- Acculogic Flying Probe
Fixtureless Flying Probe testers
- Acculogic Scorpion ICT
In-Circuit Test Systems
- iTest series

Boundary Scan

- Acculogic Boundary Scan
A comprehensive set of Boundary Scan tools including test platforms, modules and software powered by VICTORY

Backplane & Cableform Test Systems

- LINX
Fixtureless backplane tester, suitable for all connector types
- Adaptronic KT/NT series
High voltage (up to 6kV) cable test systems

Terotest also stock a range of second-user Wayne Kerr & Marconi systems and modules.

If you thought you couldn't test it.....
